Vanessa Patenaude PT, MS

Vanessa is the ACCE for the University of Maine @ Presque Isle PTA program. She holds a post professional Master of Science degree from the University of Indianapolis with a concentration in Neurology. She has owned a private pediatric physical therapy practice for the last 14 years in which she still practices part time. Vanessa has been involved in clinical education in a variety of capacities for the last 25 years as a clinical instructor, CCCE and now ACCE. Her initial clinical instructor certification was in 1995 from the NEC-ACCE with APTA credentialed CI status in 2013. She became certified CCIP trainer in 2014. She is a member of the New England PTA consortium. Vanessa feels strongly about the team effort that is needed between the academic programs and clinical sites. She enjoys working with students and clinical instructors together to provide positive learning experiences for both parties.

Course Information

This program is recognized by the American Physical Therapy Association (APTA) as the Credentialed Clinical Instructor Program (CCIP) and is being offered by the New England PTA Consortium at the Kennebec Valley Community College. It takes 16 hours to complete the entire program for CI education and credentialing.

The program addresses issues of planning and preparing for physical therapy and other health profession's students during their clinical learning experiences; developing learning experience and supporting ongoing learning through questioning and effective feedback. A discussion of legal and regulatory issues associated with clinical educators is addressed, including issues presented by ADA legislation. The program closes with developing skills in identifying and managing students with exceptional performance as well as students presenting with problems.

The "Assessment Center", available only to physical therapists and physical therapist assistants, provides the participant with the opportunity to apply information from the program in simulated situations. Successful completion of each station in the Assessment Center results in the awarding of APTA CI Credentialing. The six stations of the Assessment Center have been integrated into the program schedule. Therefore, it is essential for each participant to attend all sessions of the Course and Assessment Center in its entirety.

The Program and Assessment Center will be useful for both new and experienced physical therapist and physical therapist assistant educators involved with clinical education. In addition, the Program is helpful for and available to clinical educators from nonphysical therapy providers based on a solid theoretical foundation. While the information presented covers the basic skills for clinical instructors, the interactive tasks and large & small group discussions will be of benefit even to experienced educators.
